PERSONAL INFORMATION

Sex	: Male
Date of Birth	: 17/09/2004
Home address	: Bien Hoa – Dong Nai, Vietnam

OCCUPATION INFORMATION

Education	: Last Year Student at HCM city University of Technology – HUTECH
GPA	: 3.78
Current Position	: C++ Teaching Instructor at FullHouse Dev
Career Level	: Part Time Instructor
Job's Type	: Open to Internship / Full-time opportunities.
Career Interest	: AI & Automation
Preferred Location	: Online or On-site

CAREER OBJECTIVE

Aspiring AI and automation developer eager to apply technical skills and research experience to contribute to innovative software projects, while continuously developing leadership and professional expertise.

PROFESSIONAL EXPERIENCE

- Practical experience gained through academic research projects and team-based software development initiatives.
- Led a team of 5 developers to deliver a trading system prototype within 4 months.
- Current position: C++ Teaching Instructor at FullHouse Dev.

2024 - 2025: Undergraduate Researcher, HUTECH University
Project: Malware Detection in PE files Using Feature Extraction Based on FFT

- Conducted machine learning research on malware classification using FFT preprocessing.

- Built and optimized datasets, tuned model parameters, and evaluated multiple algorithms.

- Contributed to project documentation and successful thesis defense.

Early 2025 – Mid 2025: Lead Developer & Project Manager, CFP Project
Project: Automated Financial Trading System Based on Market Patterns

- Led a 5-member team to design and develop an automated trading system.

- Managed Git/GitHub workflow, architecture design, and task coordination.

- Oversaw project execution and fostered team collaboration and skill development.

Current Position: Lead Developer & Project Manager, CFP Project

- Delivering comprehensive C++ programming courses for students ranging from beginners to advanced levels.

- Design and structure learning materials focused on algorithmic thinking, software development fundamentals, and real-world applications.

EDUCATION & CERTIFICATIONS

- IELTS Certificate – Band 6.5

- English Proficiency Certificate – Level B2 (CEFR)

- Young Talent Award – IT HUTECH Got Talent 2025

MAJOR SKILLS

- Programming skills: Proficient in working with technologies such as Javascript eco-system, Python, Java, C# and C++.

- Project supervision and management: Task allocation, project coordination, and ensuring workflow efficiency.

- Collaboration & Teamwork: Strong ability to work effectively in diverse teams and contribute to shared goals.

- Self-learning & Adaptability: Highly motivated to acquire new knowledge, quickly learn emerging technologies, and apply them to practical projects.

- Office IT skills: Proficient in Microsoft Word, Excel, Email, and other office applications.
